Tutor Reflection Journal

Name: _____ **Major:** _____ **Date:** _____

School: _____ **Day:** _____ **Time:** _____

In addition to improving children's reading and mathematical abilities, one of the goals of this program is to foster growth in our undergraduate students at Iowa State University. One way we can measure this growth is through the aid of journals and reflection sessions. Please take a few minutes to record your thoughts after a few tutoring sessions. Remember: confidentiality of the student and teacher are of utmost importance. Refer to students and teachers in an anonymous way. These journals help us to assess your growth as a reading/math tutor. Please complete your journal prior to our first reflection meeting. Thank you for your time and effort. We enjoy learning about your development as a tutor.

Tasks completed during your tutoring session(s):

In your opinion, what was successful about these sessions? How did you achieve success?

What goals did you not achieve while tutoring? How could you achieve these goals?

How has your tutoring experience affected you?
